

Designated postcodes

The Solar Homes Program is supporting eligible Victorian households to install a solar battery, by providing a point of sale discount up to a maximum of \$4,174.

The battery program targets designated postcodes with high PV penetration and population growth.

For an area to be considered a designated postcode it must:

- be a high growth suburb; and
- have high PV penetration.

Based on these criteria, the following postcodes are eligible to take part in the Solar Homes battery program.

Designated postcodes

3018	3023	3024	3027	3029	3030	3038	3048	3059	3063	3064
