Solar Victoria Portal – Customer User Guide

Applying for eligibility for existing properties

The purpose of this document is to walk you through the customer rebate application process for existing properties as part of the Victorian government's Solar Homes Program.

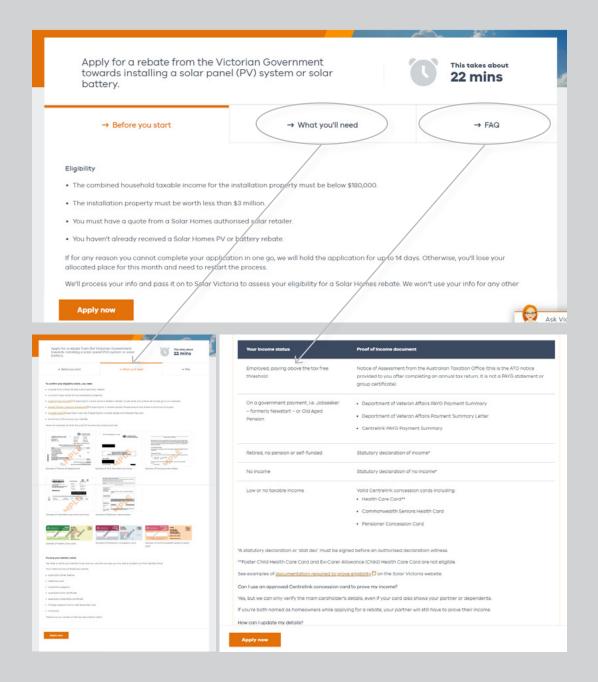

After engaging a retailer and receiving a quote, your retailer will upload your quote to the **Solar Victoria Portal**.

You will then be sent an email with a link directing you to the portal to retrieve the quote.

On the **Solar Victoria Portal home page** check the eligibility criteria and which documents you need to get started.

See if you qualify for a loan.

To declare the total household income for the property, **each property owner** needs to provide the following:

- Name
- · Date of birth

 (select their income status, which will prompt them to upload the relevant document)

Each owner needs to tick the box to confirm that they have not applied for a rebate before.

Select the name of the primary applicant. This will be the person who needs to provide their ID documents for the identity check.

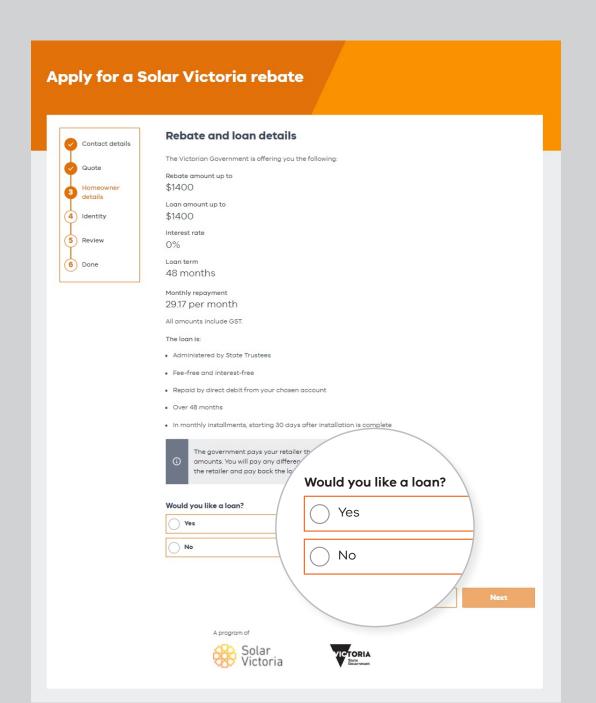

If you are eligible for a loan, you'll be offered the default loan amount of up to \$1,400 and the relevant repayments will be displayed.

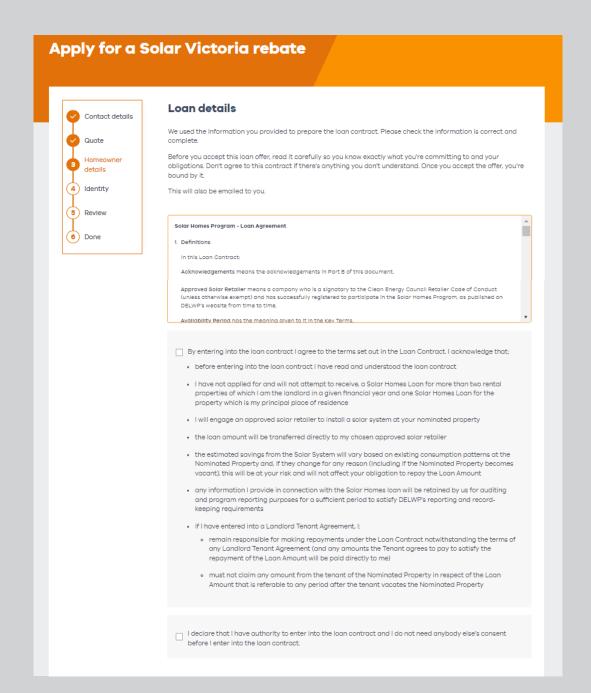

You can decide whether to accept or decline the loan here.
